# The City of Fort Wayne

## City Utilities

Fort Wayne City Council  
Room 128  
City / County Building  
Fort Wayne, Indiana 46802

Dear Council Members:

This is an information packet for ITB #7312 which is for the purchase of a combination vacuum / flusher truck for the WPC Maintenance / Stormwater Maintenance departments.

### Summary

The WPC Maintenance / Stormwater Maintenance staff is moving into a more aggressive stage of sewer evaluation. In order for us to accomplish this, another large combination truck is needed. The current truck we know have (The Enterprise) is used to remove the debris from the sewer lines. Its primary use is to clean the lines before our three (3) television inspection trucks evaluate their condition from inside the pipe. This type of equipment is the only thing that effectively cleans the sewer pipe in a timely enough manner to stay ahead of the camera trucks. At present, this truck is overloaded with work and is unable to stay ahead of all three (3) television units. If this new combination unit is purchased, our sewer evaluation program could move ahead at a 50% rate by having two (2) units.

We are going to trade a smaller combination truck in for this new unit. The smaller unit was purchased for cleaning the catch basins in the alleys and other places the larger units could not get to. It performed this job very well but it ended up taking only three (3) months to perform this type of work. For the remainder of the year (nine months), we tried using it to clean sewer lines and catch basins in the streets and intersections with poor results. The limited supply of water for flushing, smaller debris body size (more than 2/3 smaller) and less psi of vacuum pressure were all contributors to its poor performance outside of its designed usage area (alleys).

Our goal at WPC Maintenance / Stormwater Maintenance is to clean more sewer pipe so our cameras can be more effective in there evaluation of our sewer system. The purchase of a larger combination unit like the "Enterprise" will help us obtain this goal.

WPC Maintenance / Stormwater Maintenance plans to purchase a vacuum only truck that will be a medium sized chassis. This will enable the unit to perform the alley catch basin cleaning as well as the streets and intersections at an equal efficiency level.

Thank you,

Jeffrey A Morris  
Assistant Superintendent

DIGEST SHEET

TITLE OF ORDINANCE: Special

DEPARTMENT REQUESTING ORDINANCE: Purchasing

SYNOPSIS OF ORDINANCE: An ordinance approving the award on I.T.B. No. 7312 for a combination flusher/vacuum for the WPC Maintenance Department.

IF NOT LOWEST, WHO WAS AND WHY WERE THEY NOT AWARDED:

EFFECT OF PASSAGE: This is for a combination flusher/vacuum truck for the WPC Maintenance Department. This unit will be used to clean the dirt and debris from the sanitary, storm and combination sewer lines.

IF REPLACEMENT, WHAT NECESSITATES: This unit will be replacing a smaller combination flusher/vacuum truck. The smaller truck is ineffective in cleaning sewer lines as its primary duty and will be traded in for the larger unit.

EFFECT OF NON-PASSAGE: The ability to clean sewers on a preventive maintenance schedule will be lost. The unit WPC Maintenance currently has can not keep up with the work demand now. We will need the new unit to catch up with the load and enable us to move into a pro-active state of cleaning.

MONIES INVOLVED: Brown Equipment \$127,071.00

PRICE AGREEMENT: PURCHASE ORDER: Yes

SOURCE OF FUNDING: WPC Maintenance 514-533-S101-4444

PRIOR APPROVAL: DATE:  
(IF APPLICABLE)
